By acceptance of delivery or receipt of service, Customer agrees to be bound by and accepts these terms and conditions. TPI may change any term or condition of this document prior to Customer's acceptance, provided that Customer is given prior written notice of such change.

2. **Other Documents.** These terms and conditions may NOT be altered, supplemented, or amended by the use of any other document(s), except as otherwise noted. Any attempt to alter, supplement or amend this document or to enter an order for product(s) or services and support that are subject to additional or altered terms and conditions will be null and void, unless otherwise agreed to in a written agreement signed by both Customer and TPI. Any terms on Customer's invoice other than as to quantity of goods ordered and the thereof shall be superseded by the terms of this agreement. The specification on the invoice may be adjusted as provided herein.

3. **Order Acceptance.** All order acceptances of TPI are conditional and subject to cancellation by TPI until the order is actually delivered for shipment by TPI to Customer. Prepayment of an order may be required prior to shipment. Unless such payment is required, payment will be due as of the day upon which the order is shipped to Customer. TPI will advise Customer if, for any reason, it determines to cancel an order. If an order is cancelled after payment is received, Customer will receive a full refund of the order.

4. **changes, error correction, and sufficiency of stock.** TPI reserves the right to correct errors or errors in the description of its products up to the point of shipment to Customer. Should a pricing or description error be made, TPI will advise Customer of the error and Customer shall have the right to cancel its order. 5. **Payment Terms; Orders; Quotes; Interest.** Terms of payment are within TPI's sole discretion, and unless otherwise agreed to by TPI, payment must be received by TPI prior to TPI's delivery of an order. Payment for the products and services and support will be made by credit card, wire transfer, or some other prearranged payment method unless credit terms have been agreed to by TPI. Invoices are due and payable within the time period noted on the reverse side of this invoice, measured from the date of the invoice. TPI may invoice parts of an order separately. Orders are not binding upon TPI until accepted by TPI. Any quotations given by TPI will be valid for the period stated on the quotation. Customer agrees to pay interest on all past-due sums at the highest rate allowed by law.

6. **Shipping Charges; Taxes.** Separate charges for shipping and handling will be shown on TPI's invoice(s). Unless Customer provides TPI with a valid and correct tax exemption certificate applicable to the product ship-to location prior to TPI's acceptance of the order, Customer is responsible for sales and all other taxes associated with the order, however designated, except for TPI's franchise taxes and taxes on TPI's net income. If applicable, a separate charge for taxes will be shown on TPI's invoice.

7. **Title; Risk of Loss.** Title to products passes from TPI to Customer on shipment from TPI's facility. Any service or support provided by TPI to customer will be billed at TPI's then current rates, which will be provided to Customer prior to delivery of service or provision of support. Any service or support provided will be subject to the terms of this document. Any failure by Customer to make timely payment for goods, services or support provided by TPI to Customer will be grounds for termination of any further goods, services or support until timely payment has been received.

12. Dispute Resolution. The parties will attempt to resolve any claim, or dispute or controversy, whether in contract, tort or otherwise, and whether known or unknown, or unascertainable by the parties at the time of entry into this agreement, against TPI, its agents, employees, successors, assigns or affiliates (collectively for purposes of this paragraph, "TPI") arising out of or relating to this Agreement, the making of this agreement, TPI's advertising, or any related purchase (a "Dispute") through face to face negotiation with persons fully authorized to resolve the Dispute or through mediation utilizing a mutually agreeable mediator, rather than through litigation. If the parties are unable to resolve the Dispute through negotiation or mediation within a reasonable time not to exceed 180 days after written notice from one party to the other that a Dispute exists, the Dispute will be settled by binding arbitration in accordance with the American Arbitration Association's then current Commercial Arbitration Rules, and judgment on the award rendered by the arbitrator(s) may be entered in any court having jurisdiction thereof. The arbitration hearing shall take place in Atlanta, Georgia and will be governed by the United States Federal Arbitration Act to the exclusion of any inconsistent state laws. The arbitrator shall base the award on the terms of this Agreement, and will follow the law and judicial precedents that a United States District Judge sitting in the Northern District of Georgia would apply to the Dispute. The arbitrator shall render the award in writing and will include the findings of fact and conclusion of law upon which the award is based. The existence or results of any negotiation, mediation or arbitration will be treated as confidential. Notwithstanding the foregoing, either party will have the right to obtain from a court of competent jurisdiction a temporary restraining order, preliminary injunction or other equitable relief to preserve the status quo or prevent irreparable harm, although the merits of the underlying Dispute will be resolved in accordance with this paragraph.

13. Jurisdiction.
